

DO NOT ALLOW weaker Federal NO CALL regulations to supercede State of Wisconsin's stricter regulations, or weaken these much needed regulations in any way. This relief has brought much needed peace to my household by insuring that uncollected calls are no longer received on the phone service that I, not the intruding party, pay for. I have enjoyed the result of this regulation immensely as it has restored the privacy and calm that one is entitled to in one's own home. Thank You for instituting the State of Wisconsin No Call regulation and the user friendly means of getting on the list. All involved are to be commended. This citizen greatly appreciates all that's been done to this point. Keep up the good work. Stand firm on this issue.

Respectfully,

Bonnie N. Stezala
